EYP & PYP Annual Day

DYPIS celebrated its 14th Annual day on November 12th, 2022, at Veer Savarkar Auditorium Shivaji Park. The Chief Guest Ms. Saiee Manjrekar, a renowned actress, was welcomed with a bouquet of flowers. The students of EYP had their first live annual day after Covid 2019 and it took everyone's breath away. Our cute little learners were dressed up as different sea creatures and took us on a ride under the sea to show us the importance of sharing through the play - The Rainbow Fish.

PYP celebrated India a **unique land of vibrant** colors, **breathtaking landscapes, and rich history**, from the twisting streets of Mumbai to the idyllic shores of the Andaman Islands, this remarkable country offers a diverse feast for the senses. The learners presented a drama that was funny and made us reflect on our Indian values and customs. The message "Atithi Devo Bhava," meaning "**Guest is God,**" was strongly communicated through a play performed by the PYP section. The theme "Incredible India", highlighted the importance of festivals and tradition. It kept the audience engaged, and made them laugh, clap and cheer. Many group dances were performed by different grades. The spectacular traditional dances from Rajasthan (Ghoomar), Punjab (Bhangra), Maharashtra (Koli), Kashmiri (Bhumro) were performed gracefully and elegantly. learners got an opportunity to experience teamwork amongst their peers and be proud of what the school's ideology is and what it stands for.

The faculty ensured that all learners participate, as each child is special and important to us and must be given an opportunity to showcase their talents and harness their skills and attributes through such public performances. The auditorium was filled with applause at the end of the show. A big thank you to every member of the DYPIS family and parents who contributed to the success of this event.

Secondary Annual Day

A day that was eagerly anticipated by the students, parents and teachers alike. On Annual Day, classmates and friends compete against each other to win against other houses in the school. The Annual Day witnessed an array of outstanding performances by the Secondary students on the themes of Mystery (Red House), Comedy (Blue House), Melodrama (Green House) and finally, Satire (Yellow House). Each House tried to outdo the other by putting up beautiful and mind-blowing plays and dances. A journey that began before the Diwali break finally came to a beautiful end. The students performed in front of their parents, who cheered them with passion all along the show.

Red House:

To begin with, the Red House students left no stone unturned to put on a performance filled with suspense and drama. The students ensured that they kept the audience guessing who the killer was until the end of the play. Their wholehearted participation clearly showed their desire to give their best shot to win the show. Despite the challenges they faced during rehearsals, the students managed to put up a flawless performance. In addition, their annual day journey created a lot of unforgettable moments with their friends and teachers.

Green House:

The Green House Annual Day performance was action-packed with drama, laughter, tears, and compelling monologues. The list is endless, simply because the theme was 'Melodrama'. Because students were involved in writing the script, conducting auditions, choreographing etc., their enthusiasm and energy towards their Green House ensured the journey until the final memorable performance. Characters such as Manoj and his dialogue 'Triple booking', the scene in which Amma and Kinjal fight over a suitcase and Riya's monologue were a source of constant entertainment during rehearsals. Despite being awarded the last position, the Green House students performed marvellously.

Blue House:

As Frank Clark once said, "I think the next best thing to solving a problem is finding some humour in it." The Blue House performance was packed with giggles, tons of jokes, and a lot of fun for the audience. There were constant chuckles and a fun time for the audience as they let loose. The Blue House chose the theme of Bollywood and performed a play about making a movie where two of the most prolific director and producers, Sharan Johar and Khoya Akhtar, work together on the script of Karan Arjun. Hilarity ensued - a goofy, slapstick behind-the-scenes of how a Bollywood movie is made. The highlight was Sharan and Khoya who were constantly back and forth with their sharp, witty dialogues that cracked everyone up. Everyone performed their best and made it a jolly time for the audience.

The Blue House set out to prove this point with their humorous take on the typical life of a problem-stricken Bollywood family. The story revolves around a couple 'Vijay Lakshmi' who are separated in a freak accident at the Kumbh Mela, leaving them to look after their sons single-handedly. A play that showered us with romance, and performances that put the Elite in B town to shame, dance performances that left us amazed, a family finally being reunited and a soap Dabba that left us in a split. Each and every student put in their 100 per cent effort to make sure that not only did they win but also left the audience laughing till the very end. The students seemed in their absolute element, whether on stage, during practices, creating teasers or even writing the script. The winning performances of the actors saw the Blue House win the big prize (1st place), as well as narrator (Siddhant) and Laxmi (Ananya) were awarded Best Actor 1st and 2nd places respectively for their delightful and humorous performance.

Yellow House:

Like Aristotle said, "Man is by nature a social animal", and many have started to rely on social media platforms to fulfil that desire to connect. Team Yellow focused on this issue through a satirical play based on the life of an influencer 'Kitty Su'. Using social media as a foundation for the play and building the world of Kitty Su was entirely perceived and written by the talented students. The hard work and teamwork every single student and the house teachers put in showed everyone what a powerhouse 'Team Yellow' is. It was a beautiful experience to witness the flawless performances on stage, including the marvellous performance by Tanya, a.k.a Kitty Su (which won her the Best actor award 1st place (tie)) and the cast, the backstage team, as well as the foot-tapping wedding dance performance. Finally, last but not the least, the level of dedication shown by everyone and the belief 'to try till you succeed' earned Team Yellow 2nd place.

Until the next Annual Day...

Children's day

'Children are like buds in a garden and should be carefully and lovingly nurtured as they are the future of the nation and the citizens of tomorrow'.

Pandit Jawaharlal Nehru

Every year 14 November is celebrated as Children's Day to pay tribute to our former Prime Minister, Pandit Jawahar Lal Nehru. At DYPIS we celebrated Children's Day on 15th November 2022, the celebrations began with the ***'Bubble Show'****. The show was an amazing display of bubble creations, both large and small that held the young learners spellbound. Learners of EYP, Grade 1 and Grade 2 joined in the bubble fun and popped them all! They also made for great photo opportunities to create memories for a lifetime.*

Further, the Home room teachers of Grades 3, 4 and 5 made the day more special for their class by organizing a variety of fun-filled games like Bingo, Catch me if you can, Tic Tac Toe. They danced, and watched a film while enjoying eating candy floss and popcorn. The children celebrated the day with great zeal and enthusiasm as they played and felt very excited, appreciated, and loved throughout the celebration. The events of the day brought beautiful smiles to everyone's faces.

CHILDREN'S DAY

ERNATIONAL SCH

Children's Day

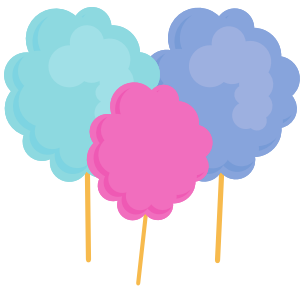

"Every child is a different kind of flower and makes this world a beautiful garden."

November 14 is celebrated as Children's Day or Bal Diwas annually in India. The special day is celebrated in remembrance of India's first Prime Minister, Jawahar Lal Nehru, born on November 14, 1889, also known as Pandit Nehru. Nehru, fondly called Chacha Nehru or simply Chachaji, was very popular amongst children. This day marks Nehru's devotion to the welfare, education and development of children and young people.

A day that marks everyone's childhood and makes this event memorable for our little ones, DY Patil International School, Worli, celebrated Children's Day on November 14, 2022, in the school premises. We commemorated the day with immense joy and enthusiasm and focused on children and their enjoyment. The school made Children's Day special for their children by organising a movie time,games and a football match. In addition, all the children relished candy floss and popcorn given by the management.
Grade 6 students watched the movie "The Good Dinosaur" while enjoying their popcorn. Grades 7 and 8 played games like 'Pyramids with Cups',' Bindi Circles', Coins on Pencils' and Transfer Balls'. For Grades 9 to 12, friendly football matches were planned, which were well-contested and high-spirited lively games. The winning team received loud cheers from its supporters, while the other spectators admired both teams' courage and sporting spirit. It was a fantastic day spent together with the bright and happy faces of students and teachers alike!

PYP

Grade 1 – Puppet show on family groups

Puppets have always fascinated children and what better than a puppet show to learn about different family groups? To make learning engaging, interactive, and interesting, the homeroom teachers performed a puppet show on 'Different Family groups'. A boy and girl visit a park and observe families indulging in various games and activities and in turn identify different family groups namely: Single Parent family, Nuclear Family and Joint Family. Students were excited and involved during the session and attained a clear understanding of the topic. The puppet show enabled students to apply their thinking and communication skills and become knowledgeable.

Grade 1: Guest Speaker session on Extended Family

Guest speakers provide real-world life experiences and give an insight into their topic. To enhance learners' educational experience Ms. Mansi Mangia in-house teacher conducted a session for Grade 1 students on 'Extended joint family'. She presented the family tree of fourteen members and explained her relationship with them as well as shared her experiences. Students also got acquainted with the terms Nuclear and Joint family and identified the difference between the two. The session was informative and students displayed the learner profile attributes of being inquirers and communicators. To summarise the topic, students attempted the visible thinking routine: Two stars and a wish.

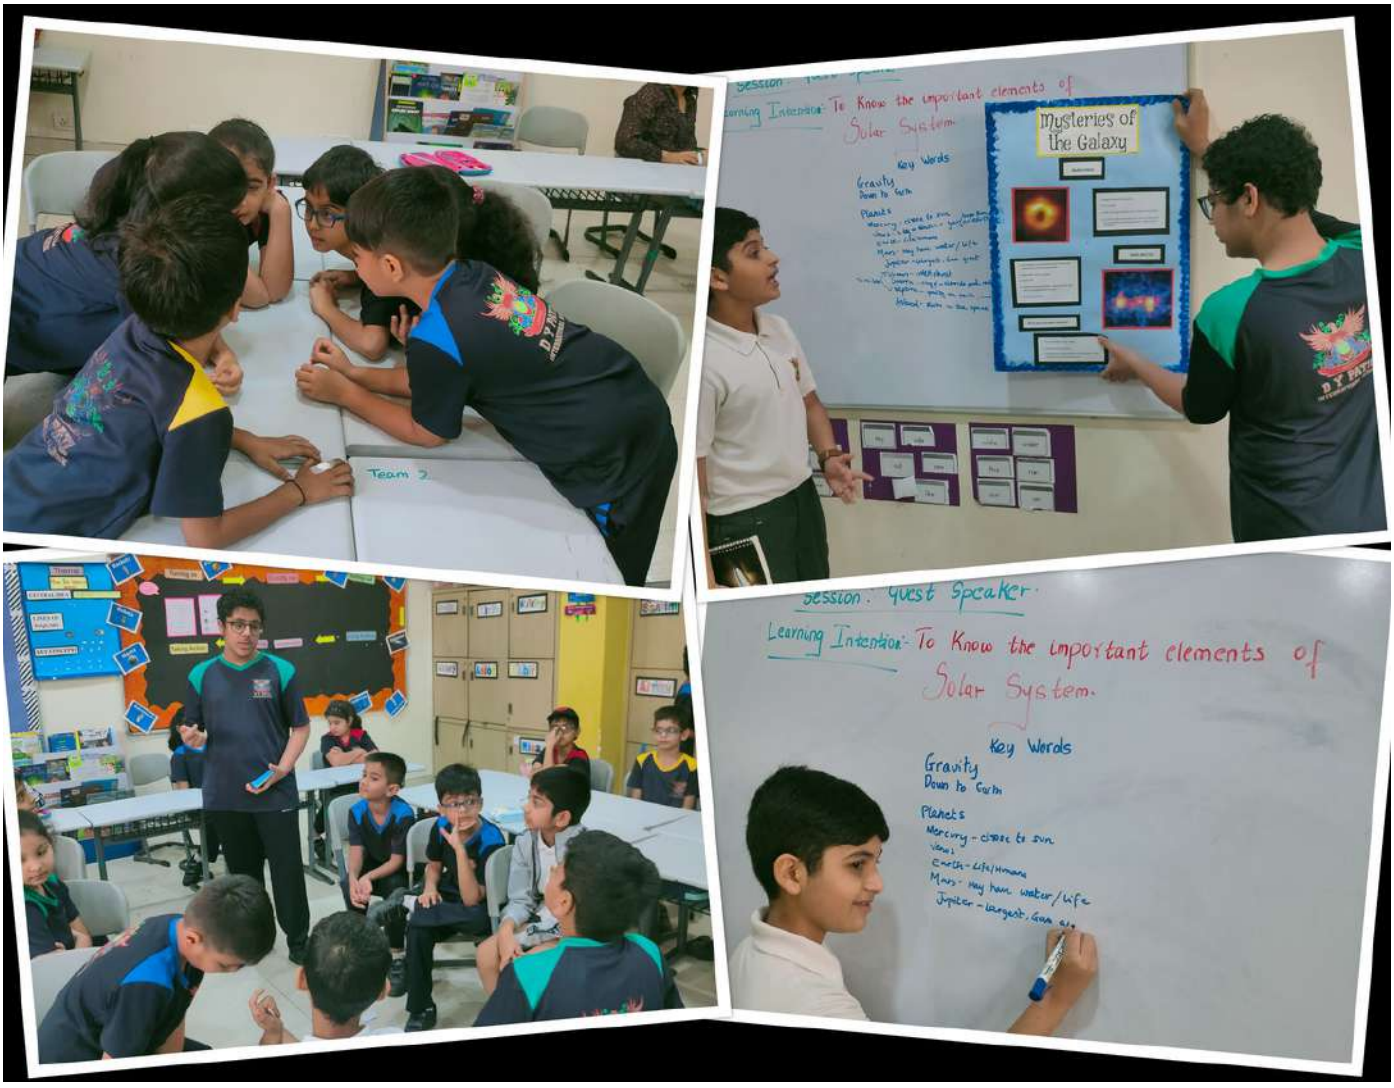

Grade 2-Guest Speaker on Solar Explorations

Guest speakers are fundamental in breaking down the barriers of the classroom walls to deepen learning. Grade 2 learners recently tuned into the unit 'Space Explorations'. This session was conducted to unfold the first line of inquiry 'Elements of Solar System'. To comprehend the unit, Grade 6 learners from DYPIS- Vihaan, and Vyom came in as guest speakers. The session was fruitful and engaging as they shared their experience and knowledge about the Solar System and its mysteries through a working model. The session concluded with an exciting quiz which made Grade 2 use their thinking and reasoning skills. Our curious learners absorbed the information and answered the quiz correctly. This experience gave our learners the opportunity to connect and create meaningful learning connections.

Action by grade 4

Action is an integral part of the Primary Years Programme (PYP) and an opportunity for learners to make a significant contribution to their local and global communities. DYPIS - PYP joined hands with the CACR (Citizens Association for Child Rights) a non-profit organization and started a drive to collect plastic bottles, cardboard, and newspapers. Grade 4 took up this initiative and became warriors by regularly reminding the PYP section to hand over the plastic waste to them.

Through taking individual and collective action, learners come to understand the responsibilities associated with being internationally minded and appreciate the benefits of working with others for a shared purpose.

Quiz activity

Grade 10 participated in a quiz activity during Computer Science class. The activity aimed to test the learners' knowledge of the topic-Data representation. It was an interesting two-round competition consisting of Visuals, Logical, Who am I and Rapid Fire questions. Students were allotted 30 seconds to answer each question in two rounds. The Rapid-Fire round was of one minute. The teams were awarded 10 points for every correct answer. The quiz was a great success, and the learners enjoyed it thoroughly.

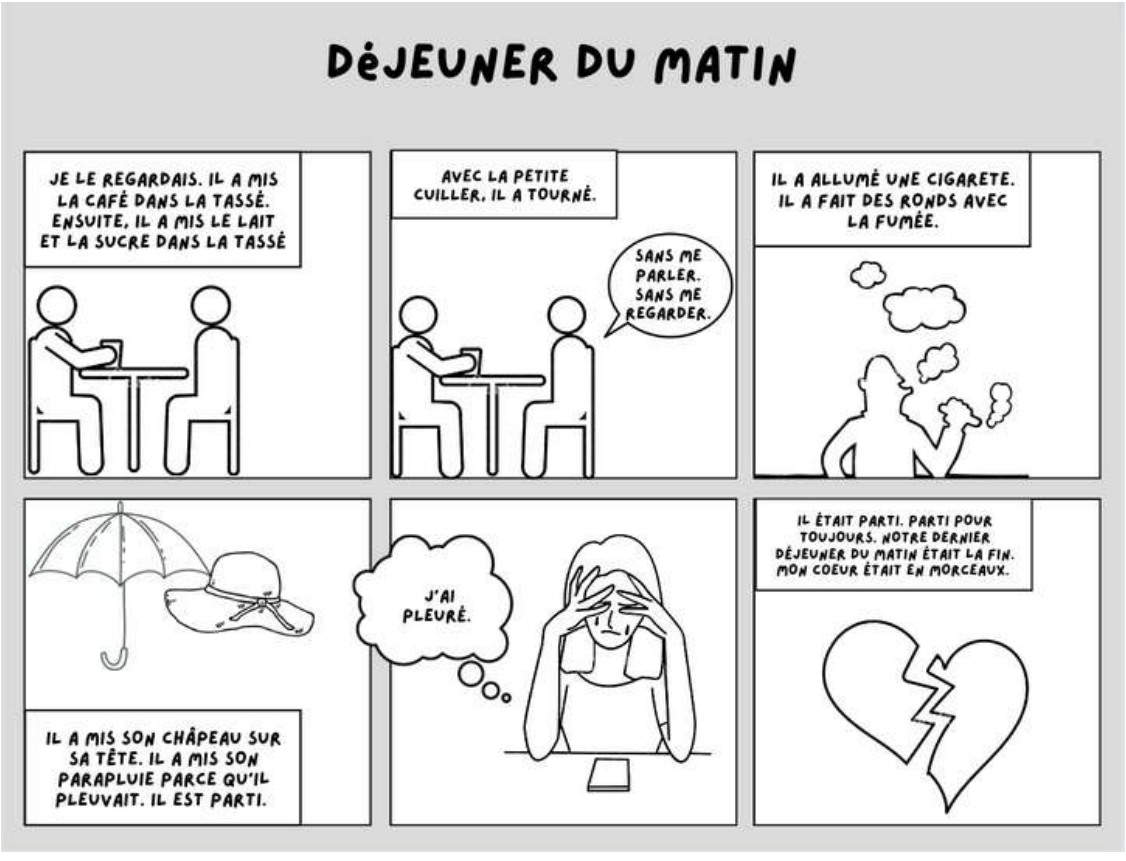

"Creativity beyond the Syllabus by the students of DP2 french"

IBDP-2 French B SL Activités pour travailler le poème "Déjeuner du matin"-November 2022
IBDP-2 French Students' Reflections :

French literature transcends a barrier of knowledge beyond the syllabus, enhancing creativity and cultivating love and passion for French. Analysing and creatively working on the poems by Guillaume Apollinaire and watching a short film titled "Dejeuner Du Matin" by Jacques Prévert significantly helped us develop our soft skills like teamwork, cooperation, and critical thinking and our ability to portray literature in a fun and creative way.

Nous, les élèves de 12e année, avons décidé d'améliorer nos compétences créatives.
Nous avons vu un court métrage intitulé "Déjeuner du Matin." Même si c' était un court métrage, il nous a donné beaucoup à réfléchir. Le film était basé sur une interaction entre deux personnes, en fait, un couple.
Nous avions des discussions et nous avons deviné la fin du court métrage et nous sommes allés au -delà de cette histoire d'un couple. C'était une activité très fascinante, intéressante et merveilleuse !!!

Under the guidance of our teacher Ms Meenakshi Mani, we, students of French B SL DP2, Aanya Vora, Ariha Shah, Samar Gandhi, Reva Agarwal, and Jiya Jain, - worked very hard to display our skills in an accessible and easy manner. Firstly Aanya Vora and Ariha Shah critically analysed the poem "Dejeuner du matin" and created an exciting crossword (mots croisés). Jiya Jain worked on a word search (mots mêlés) to elucidate the poem's vocabulary. Furthermore, using a whole new perspective,
Aanya Vora, Ariha Shah, Samar Gandhi, Reva Agarwal, and Jiya Jain. Reva Agarwal creatively made a comic strip that shared a story. Lastly, Samar Gandhi created a tree of words (L'Arbre des Mots) in line with the representations of poems by writer-poet Guillaume Apollinaire to showcase his skill and artistry. Overall, this enjoyable activity enhanced our understanding of French whilst going beyond the syllabus.

Déjeuner du matin
Il a mis le café
Dans la tasse
Il a mis le lait
Dans la tasse de café
Il a mis le sucre
Dans le café au lait
Avec la petite cuiller
Il a tourné
Il a bu le café au lait
Et il a reposé la tasse
Sans me parler
Il a allumé
Une cigarette
Il a fait des ronds
Avec la fumée
Il a mis les cendres
Dans le cendrier
Sans me parler
Sans me regarder
Il s'est levé
Il a mis
Son chapeau sur sa tête
Il a mis
Son manteau de pluie
Parce qu'il pleuvait
Et il est parti
Sous la pluie
Sans une parole
Sans me regarder
Et moi j'ai pris
Ma tête dans ma main
Et j'ai pleuré.

-Jacques Prévert

Is Learning by Doing effective?

There are numerous ways for humans to learn; hence the number of teaching methods is constantly growing. As a result, numerous approaches are available that use specific skills. Learning by doing is one of the methods I wish to share with you.

The students of AS level in DYPIS do quantitative and qualitative analysis independently. They have handled individual apparatus in the past. But, for the first time, they handled so many apparatuses and chemicals together. They could comfortably reach this stage due to their prior knowledge of this topic. In this, the students had to find out the mass of the unknown reagent. This method is an effective tool that is used to make salt which is used to make medicines. In more significant pharmaceuticals, quantitative and qualitative analysis is of much importance. The students took all safety measures as they knew about health and environmental hazards. The hands-on experience made students responsible towards their learning.
